

Master Chemical Index Subscription

www.SDSpro.com

The Master Chemical Index is a subscription service offered only to *SDSpro* Customers. The index is seamlessly incorporated with *SDSpro's* chemical table to automatically flag specific regulatory fields associated with each chemical (CAS number), significantly reducing the workload associated with SDS indexing.

MCI General Lists:

- CERCLA/SARA - Hazardous Substances and their Reportable Quantities
- CERCLA/SARA - Section 302 Extremely Hazardous Substances and TPQs
- CERCLA/SARA - Section 313 - Emission Reporting
- OSHA - Possible Select Carcinogens
- OSHA - Select Carcinogens
- RCRA - D Series - Chronic Toxicity Reference Levels
- RCRA - D Series - Maximum Concentration of Contaminants
- RCRA - F Series Wastes
- RCRA - Hazardous Constituents - Appendix VIII
- RCRA - K Series Wastes
- RCRA - P Series Wastes
- RCRA - U Series Wastes
- United States TSCA
- Canada - WHMIS: Ingredient Disclosure

MCI State Lists:

- California - Directors List of Hazardous Substances (8 CCR 339)
- California - Prop. 65 - Cancer List
- California - Prop. 65 - Developmental Toxicity
- California - Prop. 65 - Reproductive - Female
- California - Prop. 65 - Reproductive - Male
- Florida Substance List
- Massachusetts Right to Know List
- Michigan Critical Materials List
- Minnesota Hazardous Substance List
- New Jersey - Department of Health RTK List
- Pennsylvania Right to Know List
- Pennsylvania RTK - Special Hazardous Substances
- Wisconsin - Table 1 - HAPs with Acceptable Ambient Concentrations
- Wisconsin - Table 2 - HAPs, Pesticides with Acceptable Ambient Concentrations
- Wisconsin - Table 3 - HAPs Without Acceptable Ambient Concentrations
- Wisconsin - Table 4 - HAPs w/ Acceptable Ambient Conc., Compliance by 4/1/93
- Wisconsin - Table 5 - HAPs with A.A.C., EPA Reference Concentration Methodology

*If there are any specific lists that are not indicated above, please contact your *SDSpro* Software Consultant. We will make every effort to include your requested list in a future release.

Data contained in the Master Chemical Index has been controlled for accuracy by a third party. *SDSpro* is not responsible for incomplete or incorrect data. Updates to the Master Chemical Index data are provided up to four times per year and with every new *SDSpro* release.
